Release Notes
Release: NautiData® Configuration Software 8-07-2024

Description:

NautiData® Configuration Software is a robust and user-friendly tool developed by Gflow Instruments Co. Ltd. This software is designed to facilitate the configuration and management of various flowmeters and dataloggers. It provides seamless support for the following devices: NautiFlow® Electromagnetic Water Meter, Cetus® Ultrasonic Water Meter, NL3® DataLogger. Whether you're setting up new meters, calibrating existing ones, or retrieving and analyzing data, NautiData® offers a comprehensive suite of features to meet your needs.

What's New:

1. Introduced the **offline login** method. After installing the application, user need to run the application with internet availability as application need to sync with gflow database. **After synced, user can use the application without internet**. When **PC is connected to internet, application should run as administrator**.
